DRIVEN BY PEOPLE. DRIVING PROGRESS.

Modular Reverse Osmosis (RO)

- Modular and containerized RO systems 1-2500m³/day
- Project-specific complex configurations unlimited flow
- Industrial, municipal, and commercial use
- Solar powered option available

Modular STP (Sewage Cut LE)

- Scalable wastewater treatment blocks 20-20,000m³/day
- Fast deployment and easy expansion
- Ideal for phased developments
- Artistic environmental friendly shape (color your life option)

MEGA Water and wastewater projects

- Scalable water and wastewater treatment up to 20,000m³/day
- Full engineering design
- 3D modelling and stress analysis
- In compliance with international oil companies IOCs

Chemical Dosing & Preparation Systems

- Modular, skid-mounted systems for accurate chemical dosing
- Integrated tanks, pumps, instrumentation, and controls
- Supports RO pretreatment, STP processes, and post-treatment
- Improves treatment performance, safety, and operational reliability

System Integration

- Electrical design
- Programing and Software development
- Existing system upgrade and modernization
- Installation , Supervision

Chlorine Generation

- On-site generation of sodium hypochlorite for water and wastewater disinfection
- Eliminates bulk chlorine handling while ensuring consistent dosing and safety

YORA
SOLUTIONS

Self Cleaning Filters

- Minimum washing pressure: 0,5 bar
- Minimum washing discharge water
- High reliability
- High range filtration degree: 5 to 2000 microns
- *Applications: Cooling towers, sewage systems, irrigation systems.*

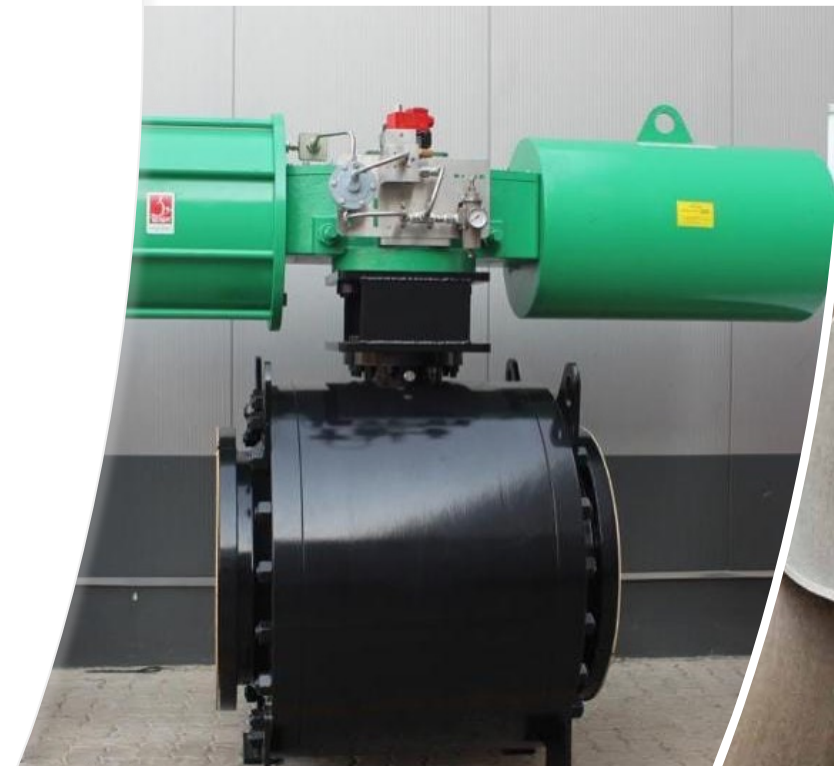

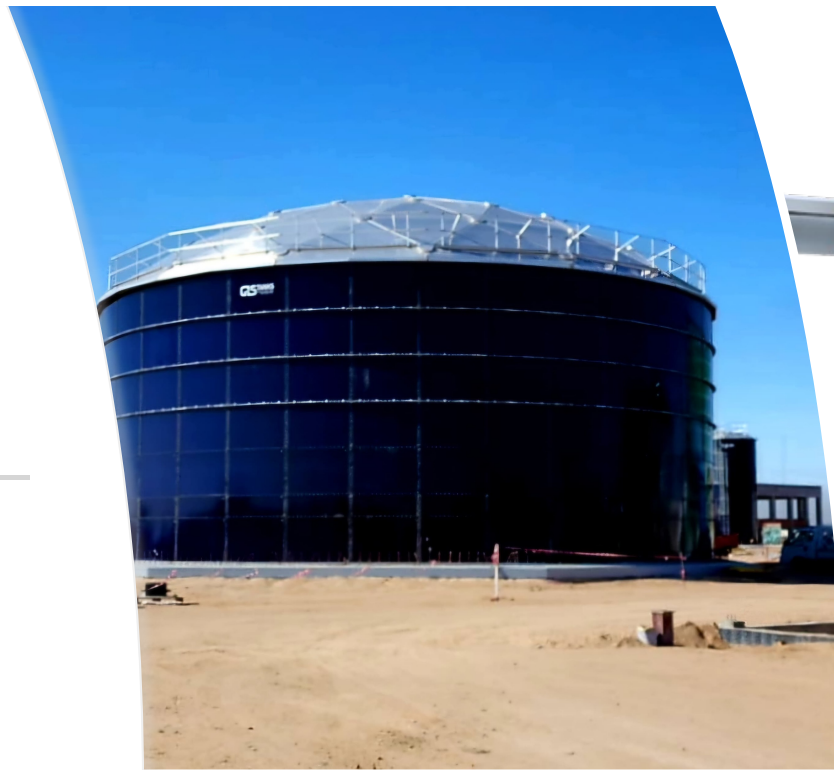

Flexible hoses and pipe floats

- Suction Hoses
- Discharge Hoses
- Floating Hoses
- Armored Hoses

Supporting Equipment

- Pumps
- Valves
- Pipes & Fittings
- Instrumentation
- Glass Lined Steel Tanks
- Electro-magnetic Anti Scalant
